miranda_chao@alumni.brown.edu | (614) 264-9268 | Seattle, WA | mirandachao.com | linkedin.com/in/mirandachao

Product manager with a passion for the intersection of art and technology. I'm about principles, creativity, and logical application with a hint of whimsy.

EXPERIENCE

Xbox Senior Product Manager: 2021 - 2026

Led product strategy and execution across store and subscription experiences, driving player acquisition and engagement end-to-end across Xbox endpoints.

- Led engagement strategy to increase retention in the Game Pass subscriptions space, focusing on increasing tenure for early adopters by building delightful experiences to motivate continuous gameplay
- Led strategy and execution of regional expansion efforts for Game Pass and Xbox with strong expertise in the China market
- Led management and execution of compliance for the Microsoft Activision Blizzard acquisition to meet requirements of international competition regulators such as the UK CMA and European Commission
- Defined strategies and led feature execution to support the Xbox storefront space across discovery, acquisition, and engagement experiences, delivering \$145M in incremental store revenue in FY24 alone

Microsoft Product Manager 2: 2018 - 2021

Led direction and execution on templates experiences and premium content upsell in the Microsoft 365 suite.

- Guided initial concept ideation for M365 Designer, an AI-driven templates platform for independent content creators
- Led the feature release and upsell funnel optimization of a freemium template content model for M365 subscriptions
- Worked on gamifying interactive learning experiences within the Office help and support space

Activision Blizzard UI/UX Intern: Summer 2018

UI/UX intern at Vicarious Visions, working on Destiny 2 to expose lore, collection completion, and player achievements in game UI.

- Examined game design techniques to ease integration of new players into established gaming communities
- Designed and prototyped a user experience within Destiny 2 to focus on story, discovery, and completion incentives

EDUCATION

Brown University, Class of 2018
BS Computer Science, Visual Arts
